BRITISH REPORTED  
BLOCKADE BOUNDJapanese Say They Are Speeding

Food Supplies

## BRITISH TROOPS ACTIVE

Boundary Barricades Manned  
To Guard Against  
Demonstrations

TIENTSIN, June 17—(INS)—Three British warships, laden with food and wellarmed to defend their mission, today were reported by Japanese sources to be speeding for Tientsin to run the Japanese-imposed blockade.

In Tientsin, where the British and French concessions are being throttled by a ring of Japanese bayonets, British troops manned the boundary barricades to guard against possible demonstrations by Japanese and Chinese being incited by agitators.

From the nearby ports of Chingwangtao and Weihaiwei, the reports said, the destroyed Decoy, escort ship Lowestoft, and depot ship Medway headed for Tientsin, determined to steam up the Hai River to the western settlements, the first two fighting ships sailed from Chingwangtao, the latter from Weihaiwei.

Down the river they will be confronted by Japanese orders that all ships proceeding upstream must be stopped and inspected by Japanese officers at the Japanese wharf in lower Tientsin. The British Consul-General at Tientsin yesterday protested in the case of two merchants so stopped.

TIENTSIN, June 17—(INS)—Creating one of the most grave crises in the present Far-Eastern tension, a Russian citizen was reported shot dead by a Japanese sentry outside the French and British concessions at Tientsin today.

An English witness said the Soviet citizen was showing his credentials when he was killed. The shooting, it was alleged, was without apparent provocation.

BRACKEN POST ENDORSES  
CELEBRATION ON JULY 4TH

Expresses Regret That Cadets  
Will Be Unable To  
Participate

## MAKE A CONTRIBUTION

There appears to be a universal desire on the part of residents of this community to contribute toward the Independence Day celebration, and solicitors, almost without exception, state that they are being welcomed into the homes and that contributions are being made as generously as the individuals can afford.

William Pearson, sixth ward, reported last night that a partial collection in that district netted \$37.50. More is to come, it is stated.

The following letter was received today:

Mr. Roy F. Fry, Treasurer,  
Independence Day Celebration,  
Bristol, Pa.

Dear Mr. Fry:

We received your letter with respect to your plans for the celebration of Independence Day in Bristol. The officers and members of the Robert W. Bracken Post of the American Legion heartily endorse your efforts in this celebration. We are enclosing our contribution for Ten Dollars.

We regret very much that we cannot offer you the services of our Junior Drum and Bugle Corps inasmuch as they were engaged last year to participate in the Palmyra-Riverton celebration which also occurs the same day. This event occurs at 10.30 in the morning.

They will also represent the Borough of Bristol in the mammoth competition which occurs in the evening in the Palmer Stadium in Princeton, N. J.

The members of the Post have been requested to contribute individually and we feel that the efforts of the committee will be successful with the cooperation of the people of the community.

If there is any way you need assistance we shall be pleased to be of service.

Very sincerely yours,  
ROBERT B. DOWNING,  
Adjutant.

Police Warn Against  
Unnecessary Horn Blowing

The unnecessary blowing of automobile horns on Sunday by wedding parties is still prohibited, according to Chief of Police Linford J. Jones. "We stopped one motorist and patrolmen took the license number of another last Sunday."

Chief Jones states that wedding parties must not indulge in unnecessary blowing of auto horns through the streets here on the Sabbath.

There is a rigid state law against it and it is going to be enforced here.

During the past few weeks Sunday wedding parties have resumed the old custom of motoring through the streets here sounding the horns of their cars and keeping up a continual din.

Last year the police received numerous complaints and finally an order was issued that violators would be arrested and fined. Then the practice ceased for a time until a few months ago, when it was resumed.

Last Sunday protests were telephoned to the police and the officers were asked to stop the noise. In a number of instances church services are disturbed and all in all the practice has become a nuisance.

A final warning is given by the police and those found guilty will be arrested and prosecuted under the state law.

## Robins Dunk Their Bread

(By "The Stroller")

Since Emily Post or some other like noted authority has ruled that dunking is proper, we notice that birds have taken to the dunking habit.

The other day as we sat on the lawn we saw robins, one after the other, pick up crumbs of bread which had been tossed to them, and fly to a nearby bird bath. Then to our amazement we saw the robins dunk the bread in the water before permitting it to disappear down their throats.

MORRISVILLE COUNCIL  
REJECTS BRIDGE PLAN

Declines Proposal to Construct  
A Lower Bridge Over Canal  
At Bridge Street

## WANTS GRADE CROSSING

MORRISVILLE, June 17—This borough is not interested in the State's proposal for a lower bridge unless its proposal for a grade crossing at the canal bridge on Bridge street is complied with. Willard S. Curtin was so instructed to advise the Public Utilities Commission.

The State has proposed to raze the present structure and erect a new bridge eight feet lower, with lengthy approaches and a 35-foot roadway, making four-lane traffic. The change in grade will necessitate great property damage from Pennsylvania avenue to Morris avenue, and the borough fathers do not feel they can finance the work at this time.

## Oil Spot Tells of 'Sub' Disaster

Paris, June 17—A spot of oil on the sea off Indo-China today told the death story of 71 officers and men of the French submarine Prenix—and the loss of the vessel under the crushed weight of 330 feet of water—was confirmed by the Ministry of Marines in Paris. Without explanation, the Ministry told of the Phenix catastrophe, the fourth major submarine disaster this year, in the following words:

"The Vice-Admiral of the Far Eastern fleet telegraphed that the Prenix must be considered lost."

And one ray of hope remained with the wife of Lieut.-Commander O. M. Bouchacourt, commander of the Phenix. "Don't alarm the public," she asked government officials. "Perhaps all is not lost. I have confidence that my husband and his crew will save the submarine."

France, whose government only a few days ago ordered four of the diving bells, used with partial success in the sinking of the Squalus, off New Hampshire, was deep in mourning.

## Witnesses Again Refuse

Harrisburg, June 17—Renewed attempts to prove its charges of payroll padding by former State Highway Secretary Roy E. Brownmiller, were followed again today as three additional state witnesses claimed immunity and refused to testify.

All three, Willis Kelper, Thomas Lavery and H. M. Stein, were foremen on Luzerne County's highway projects in 1938 and were indicted by the county on conspiracy charges.

They refused to answer questions put to them by Assistant District Attorney Earl V. Compton, expressing fear that their testimony might incriminate them in the Luzerne County inquiry. Compton repeatedly questioned Kelper, Lavery and Stein about the highway projects, the number of men who worked on them, and alleged padding of payrolls prior to the general election last November 8, without effect. All three were excused.

Boyer on the bench, Mario Maroglio, 24, 51 West Chester Square, Bronx, New York City, was granted a parole on condition that he pay the costs of prosecution on two bills of a charge of involuntary manslaughter in bi-weekly installments of not less than \$10 each.

The defendant, who was sentenced April 24 to pay the costs of prosecution and to serve not less than four months nor more than three years in the County Prison, has agreed to aid in supporting the mother of one of the dead men who was killed in an automobile-truck crash near Janney.

Maroglio began his sentence on February 24, when he was committed to the County Prison, and Judge Calvin S. Boyer, in granting his release, pointed out that the relatives of one of the dead men no longer wished him to remain in prison.

Two men were killed when the defendant, who was operating a car on the Lincoln Highway, near Janney station, made a mistake and drove into a wrong traffic lane, colliding with a truck.

The costs on the first bill amounted to \$44.75 and on the second bill to \$14.75.

His minimum sentence would have expired June 24.

Judge Boyer appointed Probation Officer Horace E. Gwinner in charge of the defendant.

He graduated from Middlebury College, where he won his Phi Beta Kappa honors and where he was active in athletics; football, baseball and track.

Upon completion of his course, he attended Harvard School of Physical Education and for two years was physical director at Montclair Academy, Montclair, N. J.

He enlisted in the Air Corps in June, 1917, attended ground school at Champaign, Ill., and took flying instruction at Wilbur Wright Field, Dayton, O. He immediately began his association with the Curtiss Corporation and organized the Curtiss Exposition Company, which conducted flying schools and charter and passenger services.

Mr. Jones was associated with the Curtiss companies for a period of 14 years in commercial flying, test work, and was president of the Curtiss-Wright Flying Services with a chain of 40 flying fields, located throughout the United States, and finally as vice-president of the Curtiss-Wright Corporation.

In 1919, he became interested in airplane racing, competing in the New York-Toronto race and over a period of eight years he competed in all of the National Air races, winning events in Kansas City, Omaha, Detroit, and St. Louis, Dayton, Philadelphia, and Chicago. He also participated in the first two Ford Tours.

In 1931, when the Curtiss-Wright Corporation decided to abandon their flying activities, he organized the Casey Jones School of Aeronautics at 534 Broad Street, Newark, N. J., where he specialized in the training of airplane mechanics and aeronautical engineers. This school is now the largest of its kind in the world, with an enrollment of over 500 students.

He is also president of the J. V. W. Corporation of the same address, a sales and consulting organization which handles aviation equipment, including the well-known Link Trainer.

He is still active in flying, both commercial and as a member of the Air Corps Reserve. He is also a member of the Advertising Club, the Institute of Aeronautical Sciences and the National Aeronautic Association.

## METHODIST SOFTBALL TEAM WINS 5TH STRAIGHT

Bristol Methodist won their fifth straight game, defeating Bristol Presbyterian 13-3. It was the 3rd straight victory for Les Moss who received wonderful support. The Methodist team had their one big inning as usual. In the first, 4 singles, 2 doubles, 2 triples and a home run by Waltz produced 7 tallies which was sufficient. The Presbyterians used their speed ball pitcher, Doc Sampsel, who after a bad start settled down and pitched good ball.

## FOUR ERRORS BY BALAZ BLAMED FOR DEFEAT

Four errors by Frankie Balaz caused the Diamond team to go down to defeat last evening in a Bristol Twilight League tilt played on Landreth's field. Final score was 3-1, with the Odd Fellows winning.

The miscues came in the second, fourth and sixth frames and all aided the Oddies in scoring. The winning combination had five errors in the fray.

Three hits were all the Diamond team could collect off the slants of Dave Ennis. The Oddies had eight hits to their credit and these were made off Dean who beat them last week at Andalusia.

"Bill" Ritter who replaced Leo Hibbs in the first inning for the Odd Fellows led the hitters of the contest with a triple and single in three official trips to the plate.

## PROFY'S SOFTBALL TEAM WINS FOURTH STRAIGHT

Profy's team gained its fourth straight and Bill Mignoni's second triumph of the season when they gave the Auto Boys an 18-10 smearing, thanks to the hitting of Vanzant, Grimes and Schemley.

Base hits and runs galore featured this slow-moving softball game with Mignoni and Roe going all the way for their respective teams.

A win over St. Ann's on Monday will give Profy's undisputed possession of first place.

Polk and Wolvin each had two hits for St. Luke's and Krames led Voltz with two hits out of three trips to the plate.

## GERMANTOWN TO PLAY LANDRETHS TOMORROW

Tomorrow afternoon at 3 o'clock the Germantown-Locust Cardinals of the Philadelphia Baseball League will battle Landreth's team here.

The Germantown team is playing very fine ball. A few days ago they defeated Mayfair four to one, moving into third place, a game and a half, behind Raphael, the league leaders. Last year the Cardinals appeared in Bristol and after a tough battle the farmers were victorious two to one; so the game this Sunday should be a very tight battle.

Tom Cahill will probably pitch for Germantown. He is a left-hander and one of the best in the Philadelphia League loop. Stew Ballard will receive.

Lonie Heisler or Howard Black will throw them up for the seedsmen with Jack Broderick on the receiving end.

## BOXING FANS ADVISED TO MAKE RESERVATIONS NOW

Those wishing choice seats for the initial professional boxing show to be held in the St. Ann's A. A. outdoor arena are requested to make their reservations over the week-end.

Match-maker Joe Gruerio last night reported that the advance ticket sales are far better than expected and he feels confident that the opening show will see the St. Ann's arena packed to near capacity.

Tickets are on sale at the St. Ann's club-house, Wood and Franklin streets; and Whyno's Barber Shop, Pond, near Mill street.

Sackett 100 yard race, feature event of the Philadelphia Swimming Club at Miquon on Saturday. Swimming against the strong current in the Schuylkill, he defeated John Macdonis, former Yale and Olympic swimmer, Walter Kelly of Villanova and Big Brothers, and Henry Steingass, Penn A. At the opening swim meet at Clementon Park, on Sunday, June 11th, he was again winner in the 100 yard race. His time was 56 seconds flat.

## TENNIS FINALS TOMORROW

## MAGINOT BUCKS FLOODS

PARIS—(INS)—French military experts pointed with pride to their Maginot Line and its first victory over the newly constructed German West-wall opposing it across the Rhine. The victory, a moral one, came as the result of the late spring Rhine floods, which entered and sifted through the German fortifications (forcing troops to abandon them) while the Maginot remained untouched by water. French engineers opined that Westwall would have to be rebuilt higher on the banks to escape the yearly flood stages of the Rhine.
